**before Purchase.**

#### DCS TRADING TERMS:

If any hardware supplied by us develops a fault within 30 days of purchase (Except For HP hardware, which is 14 days) - then we will replace it free of charge. If however, your hardware develops a fault after 30 days from purchase, for the remainder of the guarantee period (12 months unless stated otherwise), then the item will have to be sent back to the manufacturers for repair or replacement. This can take anywhere from 3 days to 5 weeks. Some products we sell are covered by a manufacturer's warranty, which means that they will deal with repairs or replacement. If you are unsure who covers the warranty for an item purchased from us, please give us a call and we will be pleased to help.

#### WARRANTY REPAIRS:

Please keep all receipts as they will be needed as proof of purchase in warranty/repair cases. Without proof of purchase, we cannot accept faulty goods for repair/replacement.

Please note: All our products have our warranty stickers attached. These must be intact when brought in for repair or replacement. Without these tags in place, the management have the right to refuse repair or replacement

#### TECHNICAL SUPPORT:

When contacting our technical support team please have your receipt number available as all goods purchased after 01/03/99 will only be supported when this number is quoted. This is to benefit you the customer with faster, better technical support and to also to cut down on us having to support other dealers products who don't support their own products! We are sorry for any inconvenience this may cause, but this will help us to help you.
